

AWHW pewag winner weld-on hook. Welding mission accomplished.

This high-strength hook is particularly well suited for welding onto excavator bucket, spreader beams etc. Its outstanding features include a die-forged, tempered safety catch, making it extra-robust. As the safety catch locks into the tip of the hook, it provides excellent protection against lateral shifting.

The product is manufactured according to EN 1677-1 with a higher working load limit and comes with full operating and welding instructions that must be complied with at all times. The weld-on hook also has a CE marking. Replacing the SFGW-A safety catch set is easy and quick, without the need for special tools.

Optionally also available with peTAG (NFC chip) or PIP (colour marking).

Code	Working load limit [kg]	L [mm]	H [mm]	G [mm]	B [mm]	C [mm]	Weight [kg/unit]
AWHW 1,3	1.300	95	74	20	25	34	0,67
AWHW 3,8	3.800	132	106	26	35	40	1,40
AWHW 6,3	6.300	167	133	29	45	49	2,95
AWHW 10	10.000	175	136	29	50	49	4,02

Safety factor 4:1
