

# PROSYSTEM SINGLE AND DOUBLE GIRDER CRANES

Prosystem single and double girder cranes are user-friendly personal workstation cranes with extensive work area coverage. The swinging of the load is minimised due to the smooth-running push trolley centralising the load automatically to the correct lifting position. The cranes are easy to operate, enabling a smooth transfer of loads and boosting productivity when used.

Operating the light crane system requires minimal effort from the user, making it safe and ergonomic. The crane profiles are manufactured with a world-class weight-load carrying capacity ratio. Light crane solutions are modular and assembled from various standard components, and a solution can be configured for production lines in almost any industry.

The cranes can either be mounted to the ceiling or bolted to the floor with a freestanding support frame.

## Single girder crane (steel bridge and track)

### Standard range\*:

Rated capacity... 50 – 1500 kg  
Span..... 2 – 8 m  
Track..... 4 – 50 m  
Hoisting..... 5 m

## Single girder crane (aluminium bridge and track)

### Standard range\*:

Rated capacity... 50 – 1000 kg  
Span..... 2 – 7,8 m  
Track..... 4 – 30 m  
Hoisting..... 5 m

## Double girder crane (steel bridge and track)

### Standard range\*:

Rated capacity... 125 – 2000 kg  
Span..... 2 – 8 m  
Track..... 4 – 40 m  
Hoisting..... 5 m

## Double girder crane (aluminium bridge and track)

### Standard range\*:

Rated capacity... 125 – 1000 kg  
Span..... 2 – 7,8 m  
Track..... 4 – 30 m  
Hoisting..... 5 m
